

The FCC is intrusted to insure the broadcast airwaves of this country are utilized to insure equally balanced viewpoints and programming. As this is your primary charter, it is vitally important that you, as a regulatory agency, insure that license holders such as Sinclair Broadcasting do not use their position within the mainstream media to function as a partisan political platform. They should be required, as should all stations regulated by the FCC, to offer equal time and balanced viewpoints, especially during these hotly contested elections. Our country has become polarized by partisan politics and Sinclair's actions will only serve to make matters worse. Please insure that Stations owned by Sinclair Broadcasting air programming which is balanced in its views and presentation and is programming which is of benefit to the American people. Thank you.
